Looking to get your teeth cleaned or examined? Look no further! DCC's Dental Hygiene Students have you covered!

Danville Community College (DCC) dental hygiene students are searching for patients. Under the supervision of registered dental hygienists, students provide free dental exams, X-rays, and cleanings for patients in the dental hygiene clinic. Patients also receive education on ways to improve and maintain good oral and overall health.

Students are currently looking for volunteers to participate and receive these complementary services. All patients are screened for health conditions before appointments are scheduled to ensure the safety of everyone involved. Completion of

care usually consists of three to six appointments.

DCC is equipped with a state-of-the-art dental clinic that looks and functions much like a dental office. Located on the corner of South Main Street and Kemper Road in Foundation Hall on the DCC Campus, the dental clinic allows dental hygiene students to practice their skills in a hands-on setting.

Individuals who are interested may call the clinic at 434.797.8424 and leave a message.

A student will return the call to schedule an appointment.

Meet the Academic Advising Team!

At DCC, the primary goal of academic advising is to foster student success by helping students become effective agents for their own lifelong learning and personal development through informed planning and decision making. To accomplish this goal, we start by ensuring that each program-placed student is assigned an academic advisor. Visit our webpage for more information about DCC's Advising Model.

Never hesitate to contact an academic advisor.

Five Ways to Improve Attention

1: Drink More Fluids - even mild dehydration can cause you to lose concentration. Don't wait until you feel thirsty to drink.

2: Exercise - Physical exercise helps your brain stay sharp. Even walking increases oxygen to your brain, and helps reduce stress.

3: Eat a brain-boosting diet - Just as the body needs fuel, so does the brain. A diet based on fruits, vegetables, whole grains, "healthy" fats (such as olive oil, nuts, fish) and lean protein will provide lots of health benefits, and can also improve memory.

4: Sleep is critical to learning and memory - Research shows that sleep is necessary for memory consolidation, with the key memory-enhancing activity occurring during the deepest stages of sleep.

5: Keep stress in check - Stress is one of the brain's worst enemies. Over time, chronic stress can inhibit the formation of new memories and the retrieval of old ones.

Academic Integrity:

Integrity is doing the right thing, even when no one is watching.
-C. S. Lewis

You should always have pride in the work you do and should take ownership in your own learning! We understand that with tools like Google search, it's easy to find immediate answers to your questions. However, you are responsible for understanding the difference between using the web for help and support of your learning, versus using the web to cheat. Academic dishonesty/Cheating jeopardizes your success, your integrity and has consequences.

Student Expectations:

- Be honest at all times
- Actively encourage academic integrity in your friends and classmates
- Discourage any forms of cheating or dishonesty
- Inform your teacher, counselor, administrator, or someone you trust if you have a reasonable belief and/or evidence that academic dishonesty has occurred

Some examples of academic dishonesty are, but not limited to:

- Using unauthorized materials and/or resources
- Copying work from another student, or from the web

- Using a technological/communication tool and/or resource during an assessment
 - Having anyone else but you complete any part of your coursework for you
 - Using online searches to find answers to your assessment questions
 - Posting answers to assessment questions online
-

Feeling Stuck and Overwhelmed? You don't have to figure it all out today. Just take one step.

So here's the truth:

Whatever you're facing today, you've got this. There will always be challenges, whether it is family, work, or school.

Maybe you're staring at an unfinished project, avoiding starting an assignment, or wrestling with self-doubt.

- Don't quit.
- Break it down.
- Take one small step.
- Just one.

- Complete an assignment.
- Highlight the objectives in your textbook or notes.
- Research the project.

Do one thing, it will build your subject matter knowledge and self-confidence.

Try it. See what happens.

You got this.

Need accountability?

-Get with a study group, friend or tutor

Now's your chance to lead.

We're officially kicking off the search for Student Government Association (SGA) officer candidates for the upcoming academic year – and we want you to run!

SOAR Above Test Anxiety

Strategies to manage test anxiety:

1. Approach the exam with confidence.
2. Be well prepared and include as much self-testing in your review as possible.
3. Focus on healthy eating, exercise and rest habits prior to testing.
4. Simulate the exam to better manage test anxiety.
5. Challenge negative thoughts.
6. Get a good night's sleep.

On Test Day:

1. Be on time.
2. Go to the bathroom prior to being seated.
3. Take a break if exam permits.
4. Anticipate some physical distress symptoms, such as headaches, nausea, feelings of hot or too cold, etc. Remain calm and take deep breaths until it passes.
5. Sit in a location where you will be less distracted.
6. Bring a small snack to replenish energy and help take your mind off your anxiety.

During the Exam:

1. Read the directions and entire questions carefully.
2. Take a minute to organize your ideas.
3. If you feel very anxious in the test, change positions to help you relax. Stretch your arms and legs and take a few slow deep breaths to relax. Then return where you left off.
4. Manage your time effectively. Many exams include a countdown timer.

5. Focus on the present, not the past or future or what other students are doing.
6. If the exam is more difficult than you anticipated, remain positive and do your best to achieve the goal of a passing grade.
7. Stay focused when others finish early. There's no reward for finishing first.
8. Proofread when finished.

After the Exam:

1. Treat yourself. Go to see a movie with a friend, grab a special drink or your favorite meal.
2. Make a list of which strategies worked, no matter how small, as they are building blocks to success.
3. Create a specific plan for improvement (e.g. tutoring, a study group, or workshops on the subject area).

Don't forget the Tutoring Center is there to help with test anxiety and study skills. And TimelyCare Counseling Services, a free 24 hour counseling service is there to help you overcome obstacles that may interfere with your wellbeing or academic success.
